

MAN Truck & Bus SRM (Sales Region Middle East & Africa)

Mogale City Empowerment Project [MAN quote]

Johannesburg, 11.11.11

According to Tedcor CEO, Clarence Hamman, “this 220 horse-power 4x2 rigid truck is unique in this application. The compactor is sophisticated but simple, with fewer hydraulic components than conventional models and specifically designed for labour intensive application. The CLA is powerful, economical, rugged and comfortable, forming the ideal base for the hydraulically-driven compactor. The vehicle does not have a heavy tail-gate and is a lot lighter than conventional dual rear-axle 6x4 waste compactors and therefore more fuel efficient, emitting fewer carbon emissions, a growing imperative these days and ideally specified for an environmental management operation.”
